

Casing Drive System™

Power Tongs-Tubing & Casing
McCoy Global

Features & Applications

The industry has long understood the advantages of reciprocating and rotating during cementing operations. With Tesco cementing products and casing accessories, this operation becomes simple for any operator to include into their drilling program.

Features and Benefits

Reduces personnel on the rig floor during operations, as the ball may be launched from the dog house using an air-control panel

Allows casing string to rotate and reciprocate while cementing, resulting in a superior cement job

Reduces non-productive time between casing and cementing operations

High fluid velocity
